David Fleck has personally battled deed fraud since 2003 – first as a real estate fraud prosecutor in the Los Angeles District Attorney's Office and then as private trial lawyer suing to recover victims' properties. In 2019, he founded Veritable Data Solutions, Inc. to develop technology that prevents deed fraud, which he has accomplished with the Veri-Lock® System. Although there is no easy way to confirm this, he has probably represented more victims of deed fraud than any other attorney nationwide.
